# renalli

Renalli, Abstract Expressionist Artist & Entrepreneur, started painting when she was five years old. For a kid, typically, it's either books or dolls. But, for Renalli, she has found her first love in arts through pens, paints & brushes.

Her passion for the arts & design led her to finish Multimedia Arts at the De La Salle College of St. Benilde, Manila. After college, employment, and running her own Creative & Marketing agency, Artzap Studio, she missed getting her hands dirty in putting her ideas through artworks. That day was the start of her painting career. Doing these paintings gave her the work & life balance. Through art, she expresses her life learnings, travel experiences, and feelings.
